A letter from Washington, in the Baltimore Sun says :- Business over the Southern railroads must be improving from the fact that daily shipments of rolling stock pass through Washington en route for the Southern States. During the past week the following went through: 2 engines and tenders for the Northern and Southern Alabama road, 1 engine and tender for the Nashville and Chattanooga, 3 passenger cars for the Macon and Brunswick, 2 cars for the M., L. and T., 1 engine and tender for the Brunswick and A!bany, I engine and tender for the Selma and Gulf, I engine and tender for the Mississippi Central, and I engine and tender for the Georgia Air-Line. Some of those in charge of these engines and cars express the opinion that there will be fully as many cars and engines passing through here weekly for the Southern roads for some months to come.

The President denies the report that he had expressed a desire that the Senators elect from Georgia should be admitted. During the past year the receipts of the Bureau of Internal Revenue amounted to one hundred and seventy-four millions of dollars, nearly fifty millions of which were received from the tax on liquors and twenty nine millions from tobacco. The Secretary of War, in reply to a resolution of the House of Representatives, inquiring as to the amount of copper, tin, pig lead and other metals in store at the various U. S. VIRGINIA NEWS.

The Governor sent to the Legislature a supplementary message relating chiefly to the routine of State matters. Referring to the difficulty of finding Judges not disqualified by the Fourteenth Amendment, he recommends that Congress be petitioned for a general removal of disabilities. The establishment of an asylum for insane colored people is recommended. He also suggests many excellent changes in the administration of criminal law in the State.

A NEW COAL MOVEMENT. - The consumers of anthracite coal in our cities have lately derived considerable satisfaction from the large decline in the price of that article. It is supposed that the continued open winter had much to do with the decline. There has, however, been a movement in the Scranton and Wilkesbarre regions, where what is known as the Hudson and Delaware Canal Company's mines are, and which include the old Battimore Company's mines, which evidently has had a direct offect for the immediate advantage of consumers here.
